15. *Delay in raising funds from the IPO could adversely impact the implementation schedule.*

The proposed objects, as detailed in the section titled “*Objects of the Issue*” are to be largely funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute the expansion process within the given timeframe, or within the costs as originally estimated by us. Any time overrun or cost overrun may adversely affect our growth plans and profitability.

16. *Our funding requirements and deployment of the issue proceeds are based on management estimates and have not been independently appraised by any bank or financial institution and actual cost may vary compared with the estimated amount.*

Our funding requirements and the deployment of the proceeds of the Issue are based on management estimates and our current business plan. The fund requirements and intended use of proceeds have not been appraised by bank or financial institution and are based on our estimates. In view of the competitive and dynamic nature of our business, we may have to revise our expenditure and fund requirements as a result of variations including in the cost structure, changes in estimates and other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the planned expenditure and fund requirement and increasing or decreasing the expenditure for a particular purpose from its planned expenditure at the discretion of our board. In addition, schedule of implementation as described herein are based on management’s current expectations and are subject to change due to various factors some of which may not be in our control. The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors/Management and is not subject to monitoring by external independent agency. However, the deployment of funds is subject to monitoring by our Audit Committee. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

17. *Delays or defaults in customer payments could result in a reduction of our profits.*

We commit resources to projects prior to receiving advances or other payments from customers in amounts sufficient to cover expenditures on projects as they are incurred. We may be subject to working capital shortages due to delays or defaults in customer payments. If customers default in their payments on a project to which we have devoted significant resources or if a project in which we have invested significant resources is delayed, cancelled or does not proceed to completion, it could have a material adverse effect on our business, financial condition and results of operations.

18. *Our Company may require additional capital resources to achieve our object of Issue.*

The rate of our expansion will depend to an extent on the availability of adequate debt and equity capital. Further, the actual expenditure incurred may be higher than current estimates owing to but not limited to, implementation delays or cost overruns. We may, therefore, primarily try to meet such cost overruns through our internal generations and in case if the same is not adequate, we may have to raise additional funds by way of additional term debt from banks/ financial institutions and unsecured loans, which may have an adverse effect on our business and results of operations.

19. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future

may be different from those presently in use. No assurance can be given that our analysis of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

20. *Increase in wages for IT professionals could reduce our cash flows and profit margins.*

Historically, wage costs in the Indian IT services industry have been significantly lower than wage costs in more developed countries for comparable skilled technical personnel. However, in recent years wage costs in the Indian services industry have been increasing at a faster rate than those in certain developed countries. In the long run, wage increases may make us less competitive unless we are able to continue to increase the efficiency and productivity of our professionals, the prices we can charge for our products and services or both. Increases in wages, could also reduce our cash flows and our profit margins.

21. *We have not protected our assets through insurance coverage and our assets are certain operating risks and this may have a material adverse impact on our business.*

22. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

We have not paid any dividends since incorporation and there can be no assurance that dividends will be paid in future. Our ability to pay dividends in future will depend on the earnings, financial condition, cash flow, working capital requirements and capital expenditure. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our results of future earnings, financial condition, cash requirements, business prospects and any other financing arrangements. We cannot guarantee our ability to pay dividend.

23. *Our Board of Directors and management may change our operating policies and strategies without prior notice or shareholders approval.*

Our Board of Directors and Management has the authority to modify certain of our operating policies and strategies without prior notice (except as required by law) and without shareholder's approval. We cannot predict the effect of any changes to our current operating policies or strategies, on our business, operating results and the price of our Equity Shares.

24. *Quality concerns for our services could adversely impact our business.*

The business of our Company is dependent on the trust our customers have in the quality of our services. The services provided by us to our customers, which do not comply with the quality specifications or standards prevalent in the business segment, may result in customer dissatisfaction, which may have an adverse effect on our profitability.

25. *Significant security breaches in our computer systems and network infrastructure and fraud could adversely impact our business.*

We seek to protect our computer systems and network infrastructure from physical break-ins as well as security breaches and other disruptive problems. Computer break-ins and power disruptions could affect the security of information stored in and transmitted through these computer systems and networks. To address these issues and to minimise the risk of security breaches we employ security systems, including firewalls and intrusion detection systems, conduct periodic penetration testing for identification and assessment of potential vulnerabilities and, use encryption technology for transmitting and storing critical data such as passwords. However, these systems may not guarantee prevention of frauds, break-ins, damage and failure. A significant failure in security measures could have an adverse effect on our business.

26. *Our Company does not have any long-term contracts with our customers which may adversely affect our results of operations.*

Our Company has not entered into any long-term contracts with our customers. Hence there is no assurance that our present customers will continue to procure orders from us. Any loss of our major customers can lead to reduced business and margins and adversely affect our results of operations.

27. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively or at all. There is no guarantee that we will successfully execute our business strategies on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

28. *We do not have any insurance coverage for protecting us against any material hazards.*

At present, we do not have any insurance policy for protecting us against any material hazards. Any damage suffered by us in respect of any events would not be covered under any insurance and we would bear the effect of such losses.

29. *Rise in input costs may affect our profitability.*

The input costs of the products/services of the Company may increase due to various reasons. In case the Company is not able to pass on such increase to the consumers because of competition or otherwise, it may affect the profitability of the Company.

30. *We face competition in our business from both domestic and international competitors. Such competition would have an adverse impact on our business and financial performance.*

The industry, in which we are operating, is highly and increasingly competitive and unorganized and our results of operations and financial condition are sensitive to, and may be materially adversely affected by, competitive pricing and other factors. Competition may result in pricing pressures, reduced profit margins or lost market share or a failure to grow our market share, any of which could substantially harm our business and results of operations. There can be no assurance that we can effectively compete with our competitors in the future, and any such failure to compete effectively may have a material adverse effect on our business, financial condition and results of operations.

31. *Some of our Group Entities operate in the same line of business as us, which may lead to competition with such Group Entities*

Some of our Group Entities are involved in the same line of business as our Company. We may hence have to compete with our Group Entities for business, which may impact our business, financial condition and results of operations. The interests of our Promoters may also conflict in material aspects with our interests or the interests of our shareholders. For further details, see “Group Companies/Entities” on page 109.

32. *Our trademark is not registered under the Trade Marks Act, our ability to use the trademark may be impaired.*

Our company’s business may be affected due to our inability to protect our existing and future intellectual property rights. Currently, we do not have a registered trademark over our name and logo under the Trade Marks Act and consequently do not enjoy the statutory protections accorded to a trademark registered in India and cannot prohibit the use of such logo by anybody by means of statutory protection. If our trademark is not registered it can allow any person to use a deceptively similar mark and market its product, which could be similar to the products offered by us. Such infringement will hamper our business as prospective clients may go to such user of mark and our revenues may decrease.

External Risk Factors

1. *Political, economic and social changes in India could adversely affect our business.*

Our business, and the market price and liquidity of our Company's shares, may be affected by changes in Government policies, including taxation, social, political, economic or other developments in or affecting India could also adversely affect our business. Since 1991, successive governments have pursued policies of economic liberalization and financial sector reforms including significantly relaxing restrictions on the private sector. In addition, any political instability in India may adversely affect the Indian economy and the Indian securities markets in general, which could also affect the trading price of our Equity Shares.

2. *Changing laws, rules and regulations including adverse application of tax laws and regulations-such as application of goods and service tax could adversely affect our business, results of operations and cash flows.*

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new laws, rules and regulations in India applicable to us and our business. Please refer to the section "Key Industry Regulations and Policies" beginning on page 78 for details of the laws currently applicable to us.

For instance, the Government of India has proposed a comprehensive national goods and service tax ("GST") regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. Although the Government announced that it is committed to introduce GST with effect from April 1, 2016, given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to this or any other aspect of the tax regime following implementation of the GST. The implementation of this rationalized tax structure may be affected by any disagreement between certain state governments, which may create uncertainty. Recently, the Central Government pursuant to a notification dated May 19, 2015 notified an increase in service tax rate from 12.36% to 14% (with effect from June 1, 2015), as was proposed in Union Budget 2015. The levy of Education Cess and Secondary and Higher Education Cess on taxable services ceased to have effect from June 1, 2015. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Additionally, the central or state government may in the future increase the corporate income tax it imposes.

3. *Our business may be adversely affected by competition laws in India and any adverse application or interpretation of the Competition Act could adversely affect our business.*

The Competition Act, 2002, as amended (the "Competition Act"), regulates practices having an appreciable adverse effect on competition in the relevant market in India. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an appreciable adverse effect on competition is considered void and results in the imposition of substantial monetary penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services by way of allocation of geographical area, type of goods or services or number of clients in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an appreciable adverse effect on competition. The Competition Act also prohibits abuse of a dominant position by any enterprise.

The applicability or interpretation of the Competition Act to any merger, amalgamation or acquisition proposed or undertaken by us, or any enforcement proceedings initiated by CCI for alleged violation of provisions of the Competition Act may adversely affect our business, financial condition or results of operation.

4. *Our business is subject to a significant number of tax regimes and changes in legislation governing the rules implementing them or the regulator enforcing them in any one of those jurisdictions could negatively and adversely affect our results of operations.*

The revenues recorded and income earned is taxed on differing bases, including net income actually earned, net income deemed earned and revenue-based tax withholding. The final determination of the tax liabilities involves the interpretation of local tax laws as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred.

Changes in the operating environment, including changes in tax laws, could impact the determination of the tax liabilities of our Company for any year.

5. *Natural calamities and force majeure events may have an adverse impact on our business.*

Natural disasters may cause significant interruption to our operations, and damage to the environment that could have a material adverse impact on us. The extent and severity of these natural disasters determines their impact on the Indian economy. Prolonged spells of deficient or abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy, which could adversely affect our business and results of operations.

6. *Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.*

Our Company may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for the adoption of, and convergence with, the IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 (“IFRS Convergence Note”). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 32 Indian Accounting Standards are to be converged with IFRS. The date of implementation of such converged Indian accounting standards has not yet been determined and will be notified by the Ministry of Corporate Affairs after various tax related issues are resolved. We have not yet determined with certainty what impact the adoption of IFRS will have on our financial reporting. Our financial condition, results of operations, cash flows or changes in shareholders' equity may appear materially different under IFRS than under Indian GAAP or our adoption of IFRS may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period.

7. *Restrictions on foreign investment limit our ability to raise debt or capital outside India.*

Indian laws constrain our ability to raise capital outside India through the issuance of equity or convertible debt securities and restrict the ability of non-Indian companies to invest in us. Foreign investment in, or an acquisition of, an Indian company requires approval from the relevant government authorities in India, including the Reserve Board of India and the Foreign Investment Promotion Board.

8. *Any downgrading of India's debt rating by a domestic or international rating agency could negatively impact our business.*

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial results and business prospects, ability to obtain financing for capital expenditures and the price of our Equity Shares.

9. *Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

Terrorist attacks and other acts of violence or war may adversely affect the Indian markets on which our Equity Shares will trade. These acts may result in a loss of business confidence, make travel and other services more difficult and have other consequences that could have an adverse effect on our business. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of our Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse impact on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the market price of our Equity Shares.

10. *Third party statistical and financial data in this Draft Prospectus may be incomplete or unreliable.*

We have not independently verified any of the data from industry publications and other sources referenced in this Draft Prospectus and therefore cannot assure you that they are complete or reliable. Discussions of matters relating to India, its economies or the industries in which we operate in this Draft Prospectus are subject to the caveat that the statistical and other data upon which such discussions are based may be incomplete or unreliable.

- 11. *The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to greater compliance requirements and increase our compliance costs.***

A majority of the provisions and rules under the Companies Act, 2013 have been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 provides for, among other things, changes to the regulatory framework governing the issue of capital by companies, corporate governance, audit procedures, corporate social responsibility, specific compliance requirements such as obtaining prior approval from audit committee, board of directors and shareholders for certain related party transactions and the requirements for independent directors, director's liability, class action suits, and the inclusion of women directors on the boards of companies. The Companies Act, 2013 is expected to be complemented by a set of rules that shall set out the procedure for compliance with the substantive provisions of the Companies Act, 2013. In the absence of such rules, it is difficult to predict with any degree of certainty the impact, adverse or otherwise, of the Companies Act, 2013 on the issue, and on the business, prospects and results of operations of the Company.

Risks relating to the Equity Shares

- 12. *Any future issue of Equity Shares may dilute your shareholding and sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.***

Any future equity issues by us, including in a primary offering, may lead to the dilution of investors' shareholdings in us. Any future equity issuances by us or sales of its Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

- 13. *Our ability to pay any dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.***

The amount of our future dividend payments, if any, will depend upon our Company's future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends.

- 14. *The price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Issue Price, or at all.***

Prior to the offer, there has been no public market for our Equity Shares, and an active trading market on the SME Platform of BSE. The Issue Price of the Equity Shares may bear no relationship to the market price of the Equity Shares after the Issue. The market price of the Equity Shares after the Issue may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the Information Technology Industry, developments relating to India and volatility in the Exchange and securities markets elsewhere in the world. However, the LM will arrange for compulsory market making for a period of 3 years from the date of listing as per the regulations applicable to the SME Platforms under SEBI (ICDR) Regulations, 2009.

- 15. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of BSE in a timely manner, or at all.***

In terms of Chapter XB of the SEBI (ICDR) Regulations, 2009, as amended from time to time, we are not required to obtain any in-principle approval for listing of shares issued. We have only applied to BSE Limited to use its name as the Stock Exchange in this offer document for listing our shares on the SME Platform of BSE. The Government of Telangana has begun construction of a technology incubator in Hyderabad—dubbed T-Hub—to reposition the city as a technology destination. The state government is initially investing Rs 35 crore (US\$ 5.3 million) to set up a 60,000 sq ft space, labelled the largest start-up incubator in the county, at the campus of International Institute of Information Technology-Hyderabad (IIIT-H). Once completed, the project is proposed to be the world's biggest start-up incubator housing 1,000 start-ups.

Road Ahead

India is the topmost offshoring destination for IT companies across the world. Having proven its capabilities in delivering both on-shore and off-shore services to global clients, emerging technologies now offer an entire new gamut of opportunities for top IT firms in India. Social, mobility, analytics and cloud (SMAC) are collectively expected to offer a US\$ 1 trillion opportunity. Cloud represents the largest opportunity under SMAC, increasing at a CAGR of approximately 30 per cent to around US\$ 650-700 billion by 2020. The social media is the second most lucrative segment for IT firms, offering a US\$ 250 billion market opportunity by 2020. The Indian e-commerce segment is US\$ 12 billion in size and is witnessing strong growth and thereby offers another attractive avenue for IT companies to develop products and services to cater to the high growth consumer segment.

Competition

In today's dynamic business environment which is filled with rapid change of technology, government policies, mounting competitive threats and constant new entrants into market, makes it challenging to sustain and handle the intricacies and provide competitive solutions to its clients. We face competition from domestic and international Companies. We foresee this competition to continue to grow as the demand for software development solutions increases. Apart from that, clients may reduce their dependency on vendors in India and outsource work to other offshore destinations such as China, Russia and Eastern European countries. Further we believe that our competition also depends on several factors which include currency fluctuations, changing business framework, information technology policies, difficult to retain skilled staff etc.

The information detailed in this chapter has been obtained from publications available in the public domain. The regulations set out below are not exhaustive, and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice.

The following description is a summary of the relevant regulations and policies as prescribed by the Government of India that are applicable to the Company. The statements below are based on the current provisions of Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

Our Company is bound by several legislations applicable to it. Some of the key regulations applicable to our Company are summarized hereunder:

INDUSTRY-SPECIFIC REGULATIONS

Information Technology Act, 2000 (“the IT Act”)

The IT Act was enacted with the purpose of providing legal recognition to electronic transactions and facilitating electronic filing of documents. The IT Act further provides for civil and criminal liability including fines and imprisonment for various cybercrimes, including unauthorized access to computer systems, unauthorized modification to the contents of computer systems, damaging computer systems, the unauthorized disclosure of confidential information and computer fraud. The IT Act regulates Information Technology i.e. it governs information storage, processing and communication. The Act provides legal recognition of electronic records and electronic signatures, their use, retention, attribution and security. Penalties are provided for cybercrimes which include tampering with computer source document and electronic publishing of obscene information, in addition to provision of compensation in certain cases.

The Copyright Act, 1957 (“Copyright Act”)

The Copyright Act, 1957 (“**Copyright Act**”) protects original literary, dramatic, musical and artistic works, Cinematographic films and sound recordings from unauthorized use of such works. Unlike the case with patents, copyright protects the expressions and not the ideas. There is no copyright in an idea. The object of copyright law is to encourage authors, artists and composers to create original works by rewarding them with exclusive right for a fixed period to reproduce the works for commercial exploitation. Copyrights subsist in following class of works: a) Original literary, musical, dramatic and artistic works b) Cinematograph films c) Sound recordings Under the copyright law the creator of the original expression in a work is its author who is vested with a set of exclusive rights with respect to the use and exploitation of the work. The author is also the owner of the copyright, unless there is a written agreement by which the author assigns the copyright to another person or entity, such as a publisher, where work is done under a ‘work for hire’ agreement, the copyright vests with the hirer, i.e., the person providing the work. The owner of copyright in a work can assign or license his copyright to any person, such as publisher, under a written agreement. Copyright subsists in a work since the time it comes into being. Therefore, registration of copyright neither creates any rights nor precludes enforcement of the existing ones. However, owing to its evidentiary value, a registered copyright is easier to establish in the court of law. The term of copyright varies across different types of works. Therefore, except as specifically provided in the Copyright Act, a copyright shall subsist in any literary, dramatic, musical or artistic work (other than a photograph) published within the lifetime of the author until 60 (sixty) years from the beginning of the calendar year next following the year in which the author dies.

The Electricity Act, 2003

The Electricity Act, 2003 (the “**EA 2003**”) is a central unified legislation relating to generation, transmission, distribution, trading and use of electricity, that seeks to replace the multiple legislations that governed the Indian power sector. The most significant reform initiative under the EA 2003 was the move towards a multi buyer, multi seller system as opposed

to the existing structure which permitted only a single buyer to purchase power from power generators. In addition, EA 2003 provides for a greater flexibility and grants the respective electricity regulatory commissions greater freedom in determining tariffs, without being constrained by rate-of-return regulations. The Act seeks to encourage competition with appropriate regulatory intervention. An Appellate Tribunal to hear appeals against the decision of the Central Electricity Regulatory Commission and State Electricity Regulatory Commissions has been established. However, EA 2003 provided that transmission, distribution and trade of electricity are regulated activities which require licenses from the appropriate electricity regulatory commission, unless exempted by the appropriate government in accordance with the provisions of EA 2003. It was amended in 2007 to exempt captive power generation plants from licensing requirements for supply to any licensee or consumer. Government has also announced National Electricity Policy in 2005 to guide the development of the electricity sector in India.

Pursuant to a notification dated October 14, 2009, the Central Electricity Regulatory Commission has notified the Central Electricity Regulatory Commission (Furnishing of Technical Details by the Generating Companies) Regulations, 2009, which requires that electricity generating companies furnish technical details to the Central Electricity Regulatory Commission regarding the generating stations operated by them. Furthermore, these regulations stipulate that any power generating company that proposes to set up a 85 generating station must provide the Central Electricity Regulatory Commission with the required technical details three years prior to the commercial operation of the stations proposed to be set up.

OTHER REGULATIONS

Transfer of Property Act, 1882 (“T.P. Act”)

The transfer of property, including immovable property, between living persons, as opposed to the transfer property by operation of law, is governed by the Transfer of Property Act, 1882. The T.P. Act establishes the general principles relating to the transfer of property, including among other things, identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. Transfer of property is subject to stamping and registration under the specific statutes enacted for the purposes which have been dealt with hereinafter. The T.P. Act recognizes, among others, the following forms in which an interest in an immovable property may be transferred:

- Sale: The transfer of ownership in property for a price, paid or promised to be paid.
- Mortgage: The transfer of an interest in property for the purpose of securing the payment of a loan, existing or future debt, or performance of an engagement which gives rise to a pecuniary liability. The T.P. Act recognises several forms of mortgages over a property.
- Charges: Transactions including the creation of security over property for payment of money to another which are not classifiable as a mortgage. Charges can be created either by operation of law, e.g. decree of the court attaching to specified immovable property, or by an act of the parties.
- Leases: The transfer of a right to enjoy property for consideration paid or rendered periodically or on specified occasions.
- Leave and License: The transfer of a right to do something upon immovable property without creating interest in the property.

Further, it may be noted that with regards to the transfer of any interest in a property, the transferor transfers such interest, including any incidents, in the property which he is capable of passing and under the law, he cannot transfer a better title than he himself possesses.

The Registration Act, 1908 (“Registration Act”)

The Registration Act, 1908 was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

The Indian Stamp Act, 1899 (“Stamp Act”)

Stamp duty in relation to certain specified categories of instruments as specified under Entry 91 of the list, is governed by the provisions of the Indian Stamp Act, 1899 which is enacted by the Central Government. All others instruments are required to be stamped, as per the rates prescribed by the respective State Governments. Stamp duty is required to be paid on all the documents that are registered and as stated above the percentage of stamp duty payable varies from one State to another. Certain State in India have enacted their own legislation in relation to stamp duty while the other State have adopted and amended the Stamp Act, as per the rates applicable in the State. On such instruments stamp duty is payable at the rates specified in Schedule I of the Stamp Act. Instruments chargeable to duty under the Stamp Act which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments which are not sufficiently stamped or not stamped at all. Unstamped and

deficiently stamped instruments can be impounded by the authority and validated by payment of penalty. The amount of penalty payable on such instruments may vary from State to State.

The Bombay Stamp Act 1958 as amended by Gujarat Stamp (Amendment) Act (“Gujarat Stamp Act”) and Gujarat Stamp Rules, 1978

Gujarat Stamp Act prescribes the different rates of duties on the instrument falling within the various descriptions set-out in Schedule I of the said Act, then the instrument is chargeable with the highest of the duty prescribed. In addition, the said Act also prescribes methodology for adjudication, refund of duties, grievance processes and prosecutions. The Collector is normally vested with the power of adjudication. If a document is not stamped or adequately stamped, it is likely to be impounded.

The Indian Contract Act, 1872 (“Contract Act”)

The Indian Contract Act, 1872 codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and the breach enforced. It provides a framework of rules and regulations that govern formation and performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

The Specific Relief Act, 1963 (“Specific Relief Act”)

The Specific Relief Act, 1963 is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Specific Relief Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. ‘Specific performance’ means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

Competition Act, 2002 (“Competition Act”)

The Competition Act, 2002 aims to prevent anti-competitive practices that cause or are likely to cause an appreciable adverse effect on competition in the relevant market in India. The Competition Act regulates anti-competitive agreements, abuse of dominant position and combinations. The Competition Commission of India (“**Competition Commission**”) which became operational from May 20, 2009 has been established under the Competition Act to deal with inquiries relating to anti-competitive agreements and abuse of dominant position and regulate combinations. The Competition Act also provides that the Competition Commission has the jurisdiction to inquire into and pass orders in relation to an anti-competitive agreement, abuse of dominant position or a combination, which even though entered into, arising or taking place outside India or signed between one or more non-Indian parties, but causes an appreciable adverse effect in the relevant market in India.

The Companies Act, 1956

The Companies Act, 1956 deals with laws relating to companies and certain other associations. It was enacted by the parliament in 1956. The Act primarily regulates the formation, financing, functioning and winding up of companies. The Companies Act, 1956 prescribes regulatory mechanism regarding all relevant aspects, including organizational, financial and managerial aspects of companies. It deals with issue, allotment and transfer of securities and various aspects relating to company management. It provides for standard of disclosure in public issues of capital, particularly in the fields of company management and projects, information about other listed companies under the same management, and management perception of risk factors. In the functioning of the corporate sector, although freedom of companies is important, protection of the investors and shareholders, on whose funds they flourish, is equally important. The Companies Act, 1956 plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

The Companies Act, 2013

The Companies Act, 2013, has been introduced to replace the existing Companies Act, 1956 in a phased manner. The Ministry of Corporate Affairs has vide its notification dated September 12, 2013 has notified 98 (Ninety Eight) Sections of the Companies Act, 2013 and the same are applicable from the date of the aforesaid notification. A further 183 (One Eighty Three) Sections have been notified on March 26, 2014 and have become applicable from April 1, 2014. The Companies (Amendment) Act, 2015 has inter-alia amended various Sections of the Companies Act, 2013 to take effect from May 29, 2015. Further, vide the Companies (Amendment) Act, 2015, Section 11 of the Companies Act, 2013 has been omitted and Section 76A has been inserted in the Companies Act, 2013. The Ministry of Corporate Affairs, has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e. bringing into India from a place outside India or at the time of export of goods i.e. taken out of India to a place outside India. Any Company requiring to import or export any goods is first required to get it registered and obtain an IEC (Importer Exporter Code).

Importer Exporter Code

Under the Indian Foreign Trade Policy, 2004, no export or import can be made by a person or company without an Importer Exporter Code number unless such person/company is specifically exempted. An application for an Importer Exporter Code number has to be made to the office of the Joint Director General of Foreign Trade, Ministry of Commerce. An Importer Exporter Code number allotted to an applicant is valid for all its branches/divisions/ units/factories.

The Trademarks Act, 1999 (“Trademarks Act”)

Under the Trademarks Act, 1999, a trademark is a mark capable of being represented graphically and which is capable of distinguishing the goods or services of one person from those of others used in relation to goods and services to indicate a connection in the course of trade between the goods and some person having the right as proprietor to use the mark. A ‘mark’ may consist of a device, brand, heading, label, ticket, name signature, word, letter, numeral, shape of goods, packaging or combination of colours or any combination thereof. Section 18 of the Trademarks Act requires that any person claiming to be the proprietor of a trade mark used or proposed to be used by him, must apply for registration in writing to the registrar of trademarks. The trademark, once applied for and which is accepted by the Registrar of Trademarks (“the Registrar”), is to be advertised in the trademarks journal by the Registrar. Oppositions, if any, are invited and, after satisfactory adjudications of the same, a certificate of registration is issued by the Registrar. The right to use the mark can be exercised either by the registered proprietor or a registered user. The present term of registration of a trademark is 10 (ten) years, which may be renewed for similar periods on payment of a prescribed renewal fee.

The Patents Act, 1970

The Patents Act, 1970 is the primary legislation governing patent protection in India. In addition to broadly requiring that an invention satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection, the Act further provides that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria. The term of a patent granted under the Patents Act is for a period of twenty years from the date of filing of application for the patent. The Act deems that computer programs per se are not ‘inventions’ and are therefore, not entitled to patent protection. This position was diluted by The Patents Amendment Ordinance, 2004, which included as patentable subject matter:

1. Technical applications of computer programs to industry; and
2. Combinations of computer programs with the hardware.

However, the Patents Amendment Act, 2005, does not include this specific amendment and consequently, the Patents Act, as it currently stands, disentitles computer programs per se from patent, may disentitle the said invention to patent protection on grounds of lack of novelty. Under the Act, an invention will be regarded as having ceased to be novel (and hence not patentable), inter alia, by the existence of:

1. Any earlier patent on such invention in any country;
2. Prior publication of information relating to such invention;
3. An earlier product showing the same invention; or
4. A prior disclosure or use of the invention that is sought to be patented.

Following its amendment by the Patents Amendment Act, 2005, the Patents Act permits opposition to grant of a patent to be made, both pre-grant and post-grant. The grounds for such patent opposition proceedings, inter alia, include lack of novelty, inventiveness and industrial applicability, non-disclosure or incorrect mention of source and geographical origin of biological material used in the invention and anticipation of invention by knowledge (oral or otherwise) available within any local or indigenous community in India or elsewhere. The Act also prohibits any person resident in India from applying for patent for an invention outside India without making an application for the invention in India. Following a patent application in India, a resident must wait for six weeks prior to making a foreign application or may obtain the written permission of the Controller of Patents to make foreign applications prior to this six week period. The Controller of Patents is required to obtain the prior consent of the Central Government before granting any such permission in respect of inventions relevant for defence purpose or atomic energy. This prohibition on foreign applications does not apply, however, to an invention for which a patent application has first been filed in a country outside India by a person resident outside India.

Foreign Trade (Development and Regulation) Act, 1992 (“FTA”)

In India, the main legislation concerning foreign trade is FTA. The FTA read along with relevant rules provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. As per the provisions of the Act, the Government:- (i) may make provisions for facilitating and controlling foreign trade; (ii) may prohibit, restrict and regulate exports and imports, in all or specified cases as well as subject them to exemptions; (iii) is authorised to formulate and announce an export and import policy and also amend the same from time to time, by notification in the Official Gazette; (iv) is also authorised to appoint a 'Director General of Foreign Trade' for the purpose of the Act, including formulation and implementation of the Export-Import (“EXIM”) Policy. FTA read with the Indian Foreign Trade Policy provides that no export or import can be made by a company without an Importer-Exporter Code number unless such company is specifically exempt. An application for an Importer-Exporter Code number has to be made to the office of the Joint Director General of Foreign Trade, Ministry of Commerce.

REGULATIONS REGARDING FOREIGN INVESTMENT

Foreign Exchange Management Act, 1999 (“the FEMA”)

Foreign investment in companies such as information technology service industry is governed by the provisions of the Foreign Exchange Management Act, 1999 (“FEMA”) read with the applicable regulations. The Department of Industrial Policy and Promotion (“DIPP”), Ministry of Commerce and Industry has issued the Consolidated FDI Policy (the “**FDI Circular**”) which consolidates the policy framework on Foreign Direct Investment (“**FDI**”), with effect from May 12, 2015. The FDI Circular consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DIPP till May 11, 2015. All the press notes, press releases, clarifications on FDI issued by DIPP till May 11, 2015 stand rescinded as on May 12, 2015. Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. Under the approval route, prior approval of the Government of India through FIPB is required. FDI for the items or activities that cannot be brought in under the automatic route may be brought in through the approval route. Where FDI is allowed on an automatic basis without the approval of the FIPB, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment. In cases where FIPB approval is obtained, no approval of the RBI is required except with respect to fixing the issuance price, although a declaration in the prescribed form, detailing the foreign investment, must be filed with the RBI once the foreign investment is made in the Indian company. The RBI, in

exercise of its power under the FEMA, has also notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000 to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. The Consolidated FDI Circular dated May 12, 2015 issued by the DIPP does not prescribe any cap on the foreign investments in the sector in which the Company operates. Therefore, foreign investment up to 100% is permitted in the Company under the automatic route. No approvals of the FIPB or the RBI are required for such allotment of equity Shares under this Issue. The Company will be required to make certain filings with the RBI after the completion of the Issue. RBI has also issued Master Circular on Foreign Investment in India dated July 01, 2015 which is valid till June 30, 2016. In terms of the Master Circular, an Indian company may issue fresh shares to persons resident outside India (who are eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. As mentioned above, the Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Introduction

Information Technology Industry

India is the world's largest sourcing destination for the information technology (IT) industry, accounting for approximately 67 per cent of the US\$ 124-130 billion market. The industry employs about 10 million workforces. More importantly, the industry has led the economic transformation of the country and altered the perception of India in the global economy. India's cost competitiveness in providing IT services, which is approximately 3-4 times cheaper than the US, continues to be the mainstay of its unique selling proposition (USP) in the global sourcing market. However, India is also gaining prominence in terms of intellectual capital with several global IT firms setting up their innovation centres in India.

The IT industry has also created significant demand in the Indian education sector, especially for engineering and computer science. The Indian IT and ITes industry is divided into four major segments – IT services, business process management (BPM), software products and engineering services, and hardware.

The IT-BPM sector in India grew at a Compound Annual Growth rate (CAGR) of 15 per cent over 2010-15, which is 3-4 times higher than the global IT-BPM spend, and is estimated to expand at a CAGR of 9.5 per cent to US\$ 300 billion by 2020.

RBI on March 13, 2014 amended the FEMA Regulations and laid down conditions and requirements with respect to investment by FPIs in Indian companies.

In terms of the SEBI FPI Regulations, an FII who holds a valid certificate of registration from SEBI shall be deemed to be a registered FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FPI Regulations. Accordingly, such FIIs can participate in this Issue in accordance with Schedule 2 of the FEMA Regulations. An FII shall not be eligible to invest as an FII after registering as an FPI under the SEBI FPI Regulations. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. Restriction on Foreign Ownership of Indian Securities

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the FIPB and the RBI.

The Government has from time to time made policy pronouncements on foreign direct investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), issued the Consolidated FDI Policy Circular of 2015 (“**FDI Circular 2015**”), which, with effect from May 12, 2015, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on May 12, 2015. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2015 will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer.

The Equity Shares have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be qualified institutional buyers (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A of the Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulation S under the Securities Act and applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
